Re: Himco Inc. Dump in Elkhart County, Indiana
(hereinafter referred to as "the site")

Dear Sir or Madam:

Please be advised that the period of negotiation to coordinate with other PRPs and to present to the U.S. EPA a "good faith" proposal for undertaking of financing the RI/FS at the above site has been extended to May 26, 1989.

This extension is being granted in the spirit of cooperation that has emerged between the Agency and the original 8 named PRPs, the result of which has produced new information identifying some 37 additional PRPs.

Please be aware, however, that this new extended date is final even though additional PRPs may subsequently be identified.

Sincerely,

A handwritten signature in cursive script, reading "Norman Niedergang".

Norm Niedergang, Chief
Remedial and Enforcement Response Branch

cc: Reggie Baker, IDEM
